GOVERNMENT OF MYSORE

OFFICE OF
The Special Chief Engineer
for Major Irrigation Works in Mysore,
Bangalore,

Date 12th January, 1956.

1815

To
The Secretary to Government,
Public Works Department, Bangalore.

Sir,

Re: Water Supply to Lakkavalli Village.

1) Adverting to Government Order No.P.W.A.9395-98/Irn.1-54-165 dated 20th December 1954 according sanction to the estimate amounting to Rs.2 lakhs for the above work, I write to state that the Superintending Engineer, Tungabhadra Valley Circle, has reported that the above scheme has been executed and taps have been provided in Lakkavalli Village for the supply of water to the residents.

(2) Since then several representations are being made by the residents of the village to give house connections. In accordance with the directions contained in para 3 of the above Government Order, the Deputy Commissioner, Chickmagalur District, was requested to ascertain whether the village panchayet would bear pro-rata maintenance charges and agree to a levy of Rs.2/- per tap per month. He has reported that the village panchayet has resolved that it is not possible to bear the maintenance charges. For this reason, the question of giving house connections has to be deferred for the present, pending issue of further orders of Government in the matter.

(3) I request that the Deputy Commissioner, Chickmagalur District, may kindly be urged to use his good offices and obtain the required concurrence of the Village Panchayet concerned.

Yours faithfully,

(T. Ramaswamy Iyengar),
Special Chief Engineer.

Pjs:11/1.

4) Submitted for perusal and orders whether

forwards a report.

15) The D.C's report at page 3 C.F is for perusal with reference to paras 1-13 above. The Village panchayet of Lakkavalli have declined to bear pro-rata maintenance charges of the water supply Scheme of the village as directed by Govt at the time of sanctioning the Scheme. It has however agreed to collect at the rate of Rs 2/- per tap in respect of house connections and credit the realisations to the Dept. The D.C has agreed with the panchayet and suggests that house connections may be given on the terms agreed by them.

16) Submitted for orders. It may be pointed out here that it is not clear from the D.C's letter whether the A rate of Rs 2/- per tap which the panchayet has agreed to collect and credit is "per month" as proposed by the Spl. C.E.

17) It is clear that the rate is per month

Sanctioning an ultimate annuity to Rs 2 lakhs for the Scheme vide G.O dated 0' The D.C (Chikkamagalur) was directed to obtain a Resolution by the V.P village panchayat agreeing to bear pro-rata maintenance Charges of the water supply Scheme. perhaps at the recommendation of the D.C this Rs 2/- per tap might have been recommended. Reference is also invited to paras 1.2 of the notes above in, the Chief Engineer has himself been asked to D.C to ascertain the Whether the V.P would bear the pro-rata maintenance Charges and agree to pay Rs 2/- per tap per month. In the above circumstances the C E may have to be asked to intimate the basis on which Rs 2/- was recommended.

3) The village panchayat have stated only 120 applications have been received so far and they may increase to 250 and more in future, however it is not Certain. They are under the impression that the number of applications may increase. If that is the case and if the number of taps are less than the estimated number the extra amount will have to be borne by Govt. So it seems necessary that the village panchayat may again be requested to give their firm opinion or resolution agreeing to pay 1/5 of the total maintenance charges Rs 30000/- per annum. which works out Rs 2/- per tap per month irrespective of number of applications for water Connections in the village. Then

For perusal of the letter and its enclosures at pages 19-21 and 25-27 cF W.R.I: para 33 ante. It is seen from the Copy of the resolution of V.P. Lakkavalli at pages 27-28 cF that they are not agreeable to pay 1/5 of the maintenance cost of Rs 30,000/- per annum. They say that they will pay Rs 2000/- in the 1st year, Rs 3000/- in the IInd year, and Rs 4000/- in the Third year in view of the slender

Serial No.

Resources of the panchayat. The CENGS is also of the opinion that the panchayat should contribute Rs 6,000/- per year. The village panchayat is unable to pay Rs6000/- for year in one lump sum; as seen from the resolution In the circumstances explained the proposal of the CENGS to supply water to Lakkavalli village levying a contribution of Rs. 6000/- per year from the village panchayat ~~of Rs 24- per tap per month~~ is for orders with the concurrence of FSCR & F.D.

23/3/58 25/3/58

3/4

Precis.

In GO No.PWA 9395-98/ Irn I -54-165 dated 16/20 -12-54 sanction was accorded to an estimate amounting to Rs. 2,00,000 under 68 INED for the scheme of water supply to Lakkavalli Village, Tarikere Taluk./ The Spl. Chief Engineer (now CE - MI(S)) reported in his letter dated 12-th January 1956 that the scheme for water supply to lakkavalli village has been executed and taps have been provided in Lakkavalli Village for the supply of water to the residents. Since then several representations are being made by the residents of the village to give house connections. In accordance with the direction of the GO cited, the Dy. Commr. was requested to ascertain whether the Village Panchayat would bear

/with the direction that the Dy.Commissioner, Chickmagalur be requested to obtain a resolution by the Village Panchayat, Lakkavalli agreeing to bear pro-rata maintenance charges of the water supply scheme.

Note.—Contn. Sheet

Serial No.

pro-rata maintenance charges and agree to the levy of Rs. 2/- per tap per month. The Dy.Commr. is stated to have reported that the village Panchayat has resolved that it is not possible to bear the maintenance charges. The E-in-C further stated that for this reason the question of giving house connections has to be deffered for the present, pending issue of further orders of Govt. in the matter, and requested that the D.C.Chickmagalur may be ~~xx~~ urged to use his good offices and obtain the required concurrence of the Village Panchayat concerned.

Accordingly the DC Chickmagalur was requested in Govt. letter dated 24-3-1956. He reported in his letter Dt. 15-7-56 that the Village Panchayat of Lakkavalli ~~has~~ resolved that the Village Panchayat is not in a position to pay pro-rata maintenance charges as suggested by the Special Chief Engineer. The income of the Village Panchayat is too low and it is not even possible for the Panchayat to take up ordinary improvement works of the village. They are however agreeable to collect at the rate of Rs. 2/- for a tap and credit the realisations to the Department, ~~and~~ Agreeing with the Village Panchayat ~~he~~ the D.C suggested that the house connection as requested by the Panchayat ~~may~~ might be ordered to be given.

Subsequently the DC Chickmagalur was requested to confirm whether the Village Panchayat of Lakkavalli are agreeable to collect at the rate of Rs. 2/- per tap per month and credit the realisation to the PWD as proposed by the Special Chief Engineer, in connection with the house connections for water supply. The DC reported that the Village Panchayat has resolved at its meeting held on 9-6-56 agreeing to collect

WD 01774—GPB—PZS—300.000—26-10-57

Serial No.

and credit to PW Department at the rate of Rs. 2/ per tap per month. He has also forwarded an extract of the resolution in this behalf and requested that house connections may be ordered to be given early.

Again in Govt. letter dated 9-11-56 the CE MI (S) was asked to intimate the amount per annum of the pro-rata maintenance charges of the water supply scheme to Lakkavalli Village proposed to be recovered from the Village Panchayat and if house connections have to be given recovering at the rate of Rs. 2/- per tap per month, and if the Village Panchayat does not agree to bear the pro-rata charges, the implications of such a measure.

The Chief Enginneer in his letter dated 26-7-57 stated that the annual maintenance charges come to Rs. 30,000. The proportion of consumption of water by the colony and the village may be taken at 4:1 and on this basis Rs. 6,000 per annum will have to be recovered from the village Panchayat. And further stated that the DC Chickmagalur Dist. who was consulted in the matter was intimated that the Lakkavalli Village Panchayat is not agreeable to bear pro-rata maintenance charges , as the financial position of the village Panchayat is not satisfactory. The Village Panchayat has stated in their resolution dated 10-7-57 that they have already received 120 applications from the residents for tap connection so far and the number of connections may increase to more than 250 in future and however the village panchayat has taken the responsibility to collect at Rs. 2/- per tap per month, and requested orders for supply of water to the Lakkavalli Village levying a flat rate of Rs.2/- per tap per month.

Further the CE MI (S) was asked to clarify the

Note.—Contn. Sheet

the following points:

Serial No.

1. Is not the collection on individual tap being left to the Village Panchayat itself?

2. Has the Village Panchayat agreed to pay Rs. 6,000/- per annum towards maintenance charges?

He was also informed that it is preferable to entrust the collection work to the Village Panchayat itself and the Village Panchayat be requested once again to contribute Rs. 6,000 per annum towards maintenance charges, and it is for the Village Panchayat to fix up a suitable rate for the tap.

The CE in his letter dated 12-2-58 forwarded a copy of resolution passed in the Group Village Panchayat Lakkavalli held on 18-12-57 and stated that it is preferable to entrust the collection work to the V.P. itself and separate by-laws have to be formulated by the V.P. fixing up water rate and definining the authority to sanction house connections. It is also stated that the annual maintenance charges comes to Rs. 30,000 and assuming that the consumption of water by the colony and the village be in the proportion of 4:1 a contribution of Rs. 6,000 per annum from the village was proposed. The annual maintenance charges cannot be reduced and the proportion of consumption of water by the village will not be less than 1/5th of the total quantity and it is therefore reasonable that the Village Panchayat should contribute Rs. 6000 per year they being at liberty to levy any suitable rate on the consumers of the village. So far as payment is concerned it is stated that the Panchayat will be responsible to the PWD and the contribution will have to be paid in lump-sum each year and requested orders of Govt. in the matter.

It is therefore proposed to accord approval to the proposal of the CE II (3) to supply water to the Lakkavalli

Serial No.

Village levying a contribution of Rs. 6000 per year from the village panchayat. This is for orders with the concurrence of the LSG and FD.

29/4/58 30/4/58

(a) Refer para 41 ante. When the Village panchayat is not in a position of giving a contribution of Rs.6000/= per annum, as suggested by the CE(MII), how can water be supplied to them house-connections?

30/4

(b) The EE Mysore may be asked to furnish the information sought for.

30/4/58

46) The consumption of water by the Lakkavalli Colony and the village is in the ratio of 4:1. The annual maintenance charges on the water supply come to Rs. 30,000/-. The share of the Village Panchayat comes to Rs. 6,000/- a year on a pro-rata basis. The Village Panchayat pleads inability to bear this charge, as its financial position is not satisfactory. The Village Panchayat has however at a meeting held on 18-12-1957 resolved to pay the Government at the following rates:-

CE-27

1st year	Rs. 2,000/-
2nd year	Rs. 3,000/-
3rd year	Rs. 4,000/-

47. It has also decided at an earlier meeting (CF-14) to collect tap fee at Rs. 2/- per tap per month. The Village Panchayat says that there is on hand a demand for 120 house connections. The collections from these will come to 120 x 2 x 12 : Rs. 2,880/- a year. The Village Panchayat further states that its

Serial No.

ultimate demand will be 250 or a little more, house connections. There will eventually bring in a revenue of (250 x 2 x 12) Rs. 6,000/- a year.

48 The resolution referred to above indicates an intense keenness on the part of the Village Panchayat to provide protected water supply to its residents. It is perhaps in the fitness of things that Government may be equally anxious to go some way to meet the wishes of the Village Panchayat. To this end, a plan that suggests itself for consideration is that the provision of house connections in the Panchayat Area be taken up in two stages. In the first stage, 120 house connections be given. Against this, the V.P. will undertake to pay the Govt. Rs. 3,000/- a year. In the second stage, the remaining 130 or more house connections be given. The Village Panchayat will then contribute Rs. 6,000/- a year. It will be made clear to the Village Panchayat that it is an obligatory charge on its revenues to pay the Government the annual prorata share of the maintenance cost of the water supply scheme.

49 To recoup the amount paid to Govt. in this behalf, and to cover any incidental charges, the Village Panchayat, for its part, may frame suitable bye-laws enabling it to levy an adequate rate of tap-fee on the consumers.

50 If approved, the file may be referred to LSG & PH Department to ascertain the reaction of the Village Panchayat to the proposal. If the Village Panchayat is agreeable, its consent in the form of an authenticated resolution may be obtained and forwarded to this Deptt. for further action in the matter.

Para 43 onwards my brief has been seen. It seems to me that unless we [illegible] approximate cost (after providing for depreciation, interest on capital & working expenses), it would not be proper to make a cess. No department is already doing it but in Municipal Town.

Providing house connection is comparatively a luxury which we [illegible] villagers must pay for. There would be no objection to a small nominal house connection being given in the earlier stage provided the proportionate cost necessary for the formula which is above is borne by Panchayat.

D.C. may be informed accordingly as per

Serial No. 66.

During my recent visit to Lakkavalli, the Village Panchayat Members and the people represented that they have been called upon to pay Rs. 6,000/- per year towards the water-supply facility given to the village. The question was discussed with the Superintending Engineer, Bhadra Reservoir Circle. It looks as though the sum of Rs. 6,000/- has been fixed on an ad hoc basis. It would not be just to fix the village panchayat quota on ad hoc basis. I remember to have directed that the amount payable by the Village Panchayat should be based on a rational basis. An indication was also given as to how it should be determined. An extract of the directions given during my visit to Lakkavalli may be obtained from the Superintending Engineer, Bhadra Reservoir Circle and put up.

(84) For perusal of the letter at pages 65-71 C.E.F.N.R. to para 66 ante. The S.E's letter at pages 67-69 C.E.F. in this Connection. The S.E. in his present report has initiated the details for supplying water to Lakkavalli on population basis. According to him prorata maintenance charges of water supply will be Rs 4500/- per annum. He has also stated that the above amount Covers only the charges of existing fountains and does not include the Extension or improvements and even house Connections. If house Connections are to be provided, it is stated that the enhanced maintenance Charges and the proportion to be met by the Panchayath will be more.

U/s (119)

As desired by U.S., a brief summary of the case is submitted below:—

Reference to prepara:

108 The question of giving protected water supply to Lakkavally Village was taken up in view of the large Labour population and also some staff of the Bhadra Project who were put up in that village. Incidentally it also benefited the ~~regular~~ population of the village. Hence in G.O. (at flag T) while ~~sanctioning an estimate of Rs. 2 LKHs for protected~~ permanent water supply scheme to Lakkavally, it was.

SECRETARY TO GOVERNMENT 4941342 1960 PUBLIC WORKS DEPTT.

Note.—Contn. Sheet

Serial No.

ordered that the DC should immediately take steps to obtain a resolution from the village panchayat Lakkavally agreeing to bear pro-rata maintenance charges of the water supply. This para has been dealt in the order portion of the order (see paras 67 to 76 in 'C' file below). In pursuance to the above orders the pro-rata cost of water has been worked out as per Rs. 39,000/- and based on the average consumption, the pro-rata maintenance charges to be borne by the Lakkavally Village Panchayat will be (11.5 x 39,000) = Rs. 4,500/-. With reference to the D.O., the DC Chickmagalur now states that the V.P.Lakkavally has resolved that it is not in a position to pay the pro-rata maintenance charges and requests Govt. to order that the entire cost of maintenance of water supply to Lakkavally may be borne from the Project funds.

In continuation of the above reply, the DC has stated that the V.P. Lakkavally has made many representations for providing house connections of taps and the V.P. has also agreed to levy Rs. 2/- per tap per month and credit the realisation to the P.D. So far 120 applications for house connections have been received by the VP and requests orders for giving house connections of the taps at Lakkavally. 109

The SE, EHD reports that, if house connections have to be given at a levy of Rs. 2/- per tap per month and if the village panchayat does not agree to bear the pro-rata charges detailed in para 108 above, it will be necessary to give at least 250 house connections so that the cost of pro-rata charges may be covered by the levy. 110

From the above it may be seen that the conditions have been laid down before granting 111

Serial No.

the estimate and that no concurrence of the V.P. has been secured for sanctioning the estimate for water supply.

112 In view of the above, the following decisions may be taken:-

A 1) In view of the refusal of the V.P. to bear prorata charges, the question of recovering ~~of~~ the ~~same from the V.P. Lakkavally may be dropped and~~ orders may issue for meeting the entire charges of maintenance of water supply to Lakkavally from the projects funds. In two similar cases viz., Hiremalali and Hiremadalu in Chamarajanagar taluk sanction of Govt. has been given for meeting the maintenance charges from out of the project funds. The connected files are placed below for reference.

2) The question of providing private house connections may either be dropped as requested by the CE, IP (see P. 90 CF) or it may be considered if the ~~V.P. guarantees at least 250 house connections and~~ also guarantees ~~collection~~ payment of Rs. 2/- per month for each tap.

113) Refer para 107 above.

MYSORE GOVT. SECRETARIAT
No. 13897/8
PUBLIC WORKS BRANCH

To

The Under Secretary to the Govt. of Mysore,
Public Works Department,
Mysore Govt. Secretariat,
Bangalore-1.

Sir,

SUBJECT:- Water supply to Lakkavalli village, Tarikere Taluk.

***

With reference to your letter No.PWA.11322-23 dated 24th March 1956 forwarding a copy of letter No.995-6/S. dated 12th January 1956 from the Special Chief Engineer for Major Irrigation Works in Mysore, Bangalore, I write to state that the Village Panchayet of Lakkavalli has resolved that the Village Panchayet is not in a position to pay the pro-rata maintenance charges as suggested by the Special Chief Engineer. The income of the Village Panchayet is too low and it is not even possible for the Panchayet to take up ordinary improvement works of the village. They are however agreeable to collect at the rate of Rs.2/- per tap and credit the realisations to the department.

I agree with the Village Panchayet and suggest that the house connections as requested may be ordered to be given.

Yours faithfully,

(M.D. Shivananjappa)
Deputy Commissioner,
Chikmagalur District.

MYSORE GOVERNMENT SECRETARIAT NO. MW 2 6 JUL 1957

MYSORE GOVERNMENT SECRETARIAT NO. 5079 29 JUL 1957 PUBLIC WORKS MAJOR-IRRIGATION BRANCH

To

The Secretary to Government,
Public Works Department, BANGALORE.

Sir,

Sub: Water supply to Lakkavalli village.

With reference to your letter No.PWA.6205 dated 9-11-56 requesting to report the prorata maintenance charges of the water supply scheme to Lakkavalli village proposed to be recovered from the village panchayat etc., I write to forward herewith a copy of letter No.S.5118 dated 25-3-57 received from the Superintending Engineer, Tungabhadra Valley Circle, furnishing the required particulars.

The annual maintenance charges come to Rs 30,000/-. The proportion of consumption of water by the colony and the village may be taken at 4:1 and on this basis Rs 6,000/- per annum will have to be recovered from the village panchayet. The Deputy Commissioner, Chickmagalur District, who was consulted in the matter, has intimated that the Lakkavalli Village Panchayet is not agreeable to bear Pro-rata maintenance charges, as the financial position of the village panchayet is not satisfactory.

The village panchayet has stated in their resolution dated 10-7-1957 that they have already received 120 applications from the residents for tap connections so far and the number of connections may increase to more than 250 in future and, however, the village panchayet has taken the responsibility to collect at Rs 2/- per tap per month.

Under the above circumstances, I request that orders of Government may kindly be communicated for supply of water to the Lakkavalli village levying a flat rate of Rs 2/- per tap per month.

Copy of letter No.D2.P.R.278-C.5360/54-55 dated 31-10-55

Letter No.S.5118 dated 25-3-57 from the Superintending Engineer, Tungabhadra Valley Circle, to the Chief Engineer, Major Irrigation-South, Bangalore.

Sub: WATER SUPPLY TO LAKKAVALLI VILLAGE

With reference to your Memo No.401 dated 13-11-56 and further reminders ending with your No.2424 dated 8-1-57 on the above subject, I write to state that the Executive Engineer, No.3 Workshop & Mechanical Division, B.R.Project, has in his letter No.ST 2422 dated 19-3-57, reported as follows:-

The annual maintenance charges of the water supply to the staff colony as well as Lakkavalli village amounts to Rs 30,000/- The consumption of water by the Colonists of the Staff Colony and Lakkavalli villagers is approximately in the ratio 4:1. As such the pro-rata maintenance charges to be recovered from Lakkavalli village Panchyet will be 1/5 of the total maintenance charges during any given year. If the actual maintenance charges comes to Rs 30,000/- per annum Rs 6,000/- per annum will have to be recovered from the village panchayet.

If house connections have to be given recovering at the rateof Rs 2/- per tap per month and if the village panchayet does not agree to bear the pro-rata charges, it will be necessary that at least 250 house connections are given in the Lakkavalli village at the rate specified to enable the pro-rata charges of Rs 6,000/- being made good to Government by way of water-tax from the villagers. Thus in case the Village Panchayet is not agreeable to bear the pro-rata maintenance charges it will have to be made impending on the Village Panchayet to see that at least 250 house connections are guaranteed in the village.

Letter No.D2.P.R.278-C.5360/54-55 dated 31-10-57 from the Deputy Commissioner, Chickmagalur District, Chickmagalur, to the Executive Engineer, No.3 Workshop & Mechanical Division, B.R.P.Post.

Regarding granting of water supply house connections to residents of Lakkavalli village.

With reference to your letter No.MI.1413 dated 18-6-57, requesting to send the resolution of the Lakkavalli Village Panchayet, I write to forward the extract of the resolution of the village panchyet in the matter.

The Village Panchyet has agreed to all the conditions except Sl.No.'vi) of your letter regarding payment of pro-rata maintenance charge, as the financial position of the village panchayet is not satisfactory.

I request that house connection may kindly be granted as agreed by the Village Panchayet.

~~Memo~~No. date

Letter No.Dis. D2.PR.402 C.4515/55-56, dated the 15th July, 57 from the DeputyCommissioner, Chickmagalur District, ~~Dist~~ to the Chief Engineer, Major Irrigation,South, Bangalore.

Sub: Granting of water supply house connection to the residents of Lakkavalli village.

With reference to your letter No.1144-5 dated 26-4-57 requesting to ascertain from the Village Panchayet for giving guarantee, I write to forward herewith the extract of the Village Panchayet resolution received from the Amildar, Tarikere and to state the Village Panchayet has taken the responsibility to collect at Rs 2/- per tap per month, as can be seen from the last para of the resolution.

As there is difficulty for the supply of water to this big village, I request you kindly to give house connection early.

Letter No. 1124-1125/S dated 26-7-1957

No. 3242-43

Office of the Chief Engineer,
Major Irrigation (South),
Bangalore.

Dated 12 February 1958.

To

The Secretary to Government,
Public Works Department, Bangalore.

Sir,

Re:- WATER SUPPLY TO LAKKAVALLI.

With reference to your letter No.PWD 240 BRP 57 dated 10-9-57, I write to forward herewith for information of Government, a copy of letter No.S.T.2173 dated 18-1-1958 from the Executive Engineer, No.3 Mechanical and Workshop Division, addressed to the Superintending Engineer, Tungabhadra Valley Circle, along with a copy of the resolution passed in the Group Village Panchayet, Lakkavalli, held at its meeting dated 18-12-1957. It is preferable to entrust the collection work to the Village Panchayet itself. Separate Bye-laws have to be formulated by the Village Panchayet, fixing up water rate and defining the authority to sanction house connections.

2. The annual maintenance charges come to Rs.30,000/- and assuming that the consumption of water by the Colony and the Village be in the proportion of 4:1 a contribution of Rs.6,000/- per annum from the village was proposed. The annual maintenance charges cannot be reduced and the proportion of consumption of water by the village will not be less than 1/5 of the total quantity. It is therefore reasonable that the Village Panchayet should contribute Rs.6,000/- per year, they being at liberty to levy any suitable rate on the consumers of the village. So far as payment is concerned, the Panchayet will be responsible to this Department and the contribution will have to be paid in lumpsum each year.

I request the favour of orders of Government in the matter.

Yours faithfully,

(C.R.Krishnaswamy Mudaliar)
Chief Engineer,
Major Irrigation (South).

4/2/58

BNM:

Letter No.S.T.2173/S dated 18-1-1958 from the Executive Engineer, No.3 Workshop and Mechanical Division, B.R.P.Post, to the Superintending Engineer, Tungabhadra Valley Circle, B.R.P.Post.

REGARDING WATER SUPPLY TO LAKKAVALLI - Reference: Your Memo No.8229 dated the 17th September 1957.

In continuation of this office No.5024 dated 5-12-57, I write to enclose herewith copy of letter No.VPC 12/57-58 dated 6-1-58 from the Chairman, Group Village Panchayet, Lakkavalli, along with a copy of the resolution passed in the Village Panchayet meeting held on 18-12-1957, for favour of information and further needful.

It is preferable to entrust the collection work to the Village Panchayet itself to recover from the Panchayet their contribution towards the maintenance charges.

The Panchayet requests permission to pay Rs.2,000/- the first year, Rs.3,000/- second year and Rs.4,000/- the third year (and probably subsequent years) in view of the slender resources of Village Panchayet, towards maintenance charges, and desire that the house connections be sanctioned very early.

As reported to Government - Vide Chief Engineers's (Major Irrigation-South) No.1124 dated 26-7-57, the annual maintenance charges comes to Rs.30,000/- and assuming that the consumption of water by the Colony and the village be taken at 4:1, a contribution of Rs.6,000/- per annum from the Village Panchayet was proposed. The annual maintenance cannot be reduced and the proportion of consumption of water by the Village inhabitants will not be less than 1/5 of the total quantitity.

It is for the consideration of the benign Government to reduce the contribution from the Village Panchayet and bear a moity.

The sub lines are all laid and private connections could be given. Separate bye-laws have to be formulated by the Village Panchayet, fixing up water rate, authority to sanction the house connection etc. before the house connections may be permitted.

On receipt of further instructions, action will be taken.

Sir,

Ref: your letter No

D2. P.R. 402 - C. 4514

/55-56 dt- 5th Sept 56

I am directed to state that the village panchayat has stated in their resolution dt- 10.7.1957 that they have already received 120 applications from the residents for Tap Connections so far and the number of Connections may increase to more than 250 in future and taken the responsibility to collect Rs 2/- per tap per month.

I am therefore to suggest that the work of providing

P 13 cf

not urgent

WD-05448-GPB—PZS—90,000-27-9-56.

Home Connections in the panchayat area be taken up in two stages. In the first stage, 120 house Connections may be given. Against this the V.P. will have to undertake to pay the Govt Rs 3000/- a year. In the second stage, the remaining 130 or more house Connections may be given. The V.P will then have to Contribute Rs 6000/- a year. It may be made clear to the village panchayat that it is an obligatory charge on its revenues to pay the Govt the annual proportionate share of the maintenance cost of the water supply schemes.

To recoup the amount paid by Govt in this behalf and to cover any incidental charges, the V.P, for its part, may frame suitable bye-laws

M. G. S. App. F. G. 3]

Public Works Department, Bangalore.

To

The Superintending Engineer,
Bhadra Reservoir Circle,
Bhadra Reservoir Project Post,
Via Birur.

Sir,

Sub: Water supply scheme for Lakkavally village, Tarikere Taluk.

I am directed to state that during the recent visit of the Minister for Public Works and Electricity to Lakkavally, the village Panchayet Members and the people represented to him that they have been called upon to pay Rs.6,000/- per year towards the water supply facility given to the village. The question was also discussed with you by the Minister. It looks as though the sum of Rs.6,000/- has been fixed on an adhoc basis. It would not be just to fix the village panchayet quota on an ad hoc basis. It is learnt that the Minister has directed you that the amount payable by the village panchayet should be based on a rational basis and that an indication was also given by him as to how it should be determined. I am to request you kindly to forward an extract of the directions given by the Minister during his visit to Lakkavalli, to enable further action being taken in the matter.

Yours faithfully,

SD/-

To
~~The Executive Engineer~~,
The Secretary to the Government of
Mysore, P.W.Department,
Bangalore.

Sir,

Subject: Recovery of prorata maintainance charges of the Water Supply scheme to Lakkavalli Village from the Village panchayat, Lakkavalli.

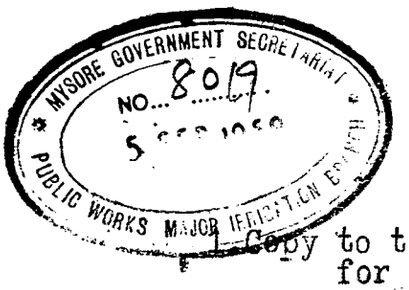
...

Mr. HOE

I am to invite a reference to the Government Order NO. P.W.A.9395-98/Irn.1-54-165 Dt.16/20-12-54 sanctioning on estimate amount to Rs.2 Lakhs for the scheme for water supply to Lakkavalli village, Tarikere Taluk and directing the Dy.Commissioner, Chickmagalur District ~~and~~ to obtain a resolution by the Village Panchayat, Lakkavalli agreeing to bear pro-rata maintenance charges of the Water supply scheme.

The Executive Engineer, NO.3.Workship and Mechanical Division, Bhadra Project who had been addressed in the matter of recovery of the pro-rata maintenance charges from the Village Panchayat has intimated that a reference has been made to Government in the matter by the Chief Engineer, Major Irrigation (South) and that pending the receipt of orders of Government in the matter no recovery has been effected towards the maintenance charges for water supply to Lakkavalli vide copy of letter NO.AGT 173 dated 30.6.58 and of the enclosure thereto received from the Executive Engineer, enclosed for reference.

I am to request that orders of Government passed in the matter may be kindly communicated for information of this office early.



Yours faithfully,

K. Venkatesh

...

With reference to your above letter,I write to state as follows.-

The question of collecting prorata maintenance charges for watersupply to Lakkafalli Village was taken up as early as 18.6.55., when,in this office letter NO.1413.the Deputy Commissioner,Chickmagalur,District,was requested to obtain and forward to this office resolutions from the Village panchayet Lakkavalli accepting to pay the Prorota charges.After much protracted correspondence on the above subject,the Chief Engineer,Major Irrigation(South),has placed definite proposals before Government in his letter NO.nil dated nil addressed to the Secretary,to Government Public Works Department. A copy of the letter which is self explanatory is enclosed for your information.

Pending orders of Government in the matter,no recovery has been effected towards the maintenance charges for water supply to Lakkavalli.

Letter NO.nil dated nil from the Chief Engineer,Major Irrigation South)Bangalore to the Secretary to Government P.W.D.Bangalore.

.....

REGARDING WATER SUPPLY TO LAKKAVALLI.

With reference to your letter NO.PWD.240 BRP.57.Dated 10.8.57 I write to forward herewith for information of Government a copy of letter NO.ST.2173 Dated 18.1.58 from the Executive Engineer, NO.3.Workshop &Mechanical Division, addressed to the Superintending Engineer,T.B.C.Circle along with a copy of the resolution passed in the Group Village Panchayat,Lakkavalli,held at its meeting dated 18.12.57.It is preferable to entrust the collection work to the Village panchayat itself.Separate Bye-Laws have to be formulated by the Village Panchayet,fixing up water rate and defining the authority to sanction house connection.

The annual maintenance charges come to Rs.30,000/-and assuming that the consumption of water by the colony and the village be in the proportion of 4:1 a contribution of Rs.6,000/-per annum from the Village was proposed.The annual maintenance charges cannot be reduced and the proportion of consumption of water by the village will not be less than 1/5 of the total quantity.It is therefore reasonable that village panchayat should contribute Rs.6,000/-per year,they being at liberty to levy and suitable rate on the consumers of the village.So far as payment is concerned the panchayet will be responsible to this Department and the contribution will have to be paid in lumpsum each year.

I request the favour of orders of Government in the matter.

MYSORE PUBLIC WORKS DEPARTMENT

No.

Encl :

Office of the Superintending Engineer,
Bhadra Reservoir Cirele
B. R. P. Post (Via : BIRUR RMS),

Dated September 1958

To

The Chief Engineer,
Major Irrigation (South),
Bangalore.

Sir,

Subject: Water supply scheme for Lakkavalli village, Tarikere Taluk.

I write to enclose a copy of letter No.PWD 240 BRP 57 dated 25th August 1958 on the above subject and wish to state that Lakkavally village is provided with a protected water supply from the project in accordance with G.O.No.PWA 9395-98/Irn-1-54-165 dated 16/20-12-54. The Deputy Commissioner, Chickmagalur District was requested in para 3 of the G.O. to obtain a resolution by the village Panchayet Lakkavalli agreeing to bear pro-rata maintenance charges of the water supply scheme.

The water supply scheme was completed in July/August 1955. The Executive Engineer, No.3 Workshop and Mechanical Division who was in charge of the water supply addressed the Deputy Commissioner, Chickmagalur in his No.1413 of 18-6-1958 requesting him to obtain the necessary resolution of the village panchayet re: pro-rata maintenance charges being borne by them. But so far they i.e. the Village Panchayet have not passed any such resolution but they have pleaded their inability to pay any portion of the maintenance charges in the existing state of their finances. On the other hand they have been perisistently urging for private house connections being granted in the village.

The outlay Annual Maintenance of the water supply

from 1954-55 is as follows:

	Rs	a	p
1954-55	24,5[illegible]8	19	3
55-56	37,914	1	0
56-57	13,6[illegible]	5	10
57-58	43,730.82		

The water supply to the village was turned on in 1955 July. So far no payment has been received from the village panchayat towards maintenance charges.

The Special Chief Engineer for Major Irrigation in works, apprised Government in his letter No.995-S/S dated 12-1-56 of the position and requested that the Deputy Commissioner, Chickmagalur District may be urged to use his good offices to obtain the concurrence of the Panchayet to pay the Prorata maintenance charges. The Secretary, P.W.D. requested the Deputy Commissioner in his No.PWA 1132-23 of 24-3-1956 to take necessary action in this behalf. He requested the Chief Engineer, Major Irrigation (South) in his No.PWA 6265 of 9-11-56 to intimate the amount of pro-rata maintenance charges recoverable from the Panchayat.

The Chief Engineer, Major Irrigation (South) was informed in this office No.5115 of 25-3-1957 that the pro-rata charges will be 1/5 of the total maintenance charges. This was based upon a report furnished by the Executive Engineer, No.3 Workshop and Mechanical Division in his No.2422 of 18/19-3-1957. A copy is enclosed for ready reference.

This proportion is based on an approximate ~~[illegible]~~ proportion of water consumed in the project area and the village. It is clear from the Executive Engineer's letter that there is no data and no figures either of population or of the quantity of water supplied to support the ratio of consumption. It has to be conceded that this figure of 1/5 is liable to be treated as arbitrary.

The question was brought to the notice of the P.W.

Minister during his visit to the village on 8-8-58. He instructed that the question should be re-examined thoroughly and the charges apportioned in a more rational manner. He suggested that it should be based on the population of the areas seeured. This is now being attended to. A copy of the report received from the Executive Engineer, No.IV Workshop and Mechanical Division in this behalf in his No.1304 of 9-9-58 is enclosed for reference.

In addition to getting the population figures for purposes of fixing up the pro-rata charges from the village, I have instructed the Executive Engineer, to furnish full details regarding the number of public ~~foundatins~~ fountains in the village, the hours of supply and the probable quantity of water supplied daily to the village. All these factors will be taken into consideration in arriving at the share of the Panchayat's due towards Maintenance.

A further report will be made after these details are obtained and corrected. I am forwarding a copy of this letter to the Secretary to Government, Public Works Department, for information.

Yours faithfully,

Sd/- (G.Subrahmanyam)
Superintending Engineer,
Bhadra Reservoir Circle.

PUBLIC WORKS MAJOR IRRIGATION BRANCH

The Chief Engineer,
Major Irrigation (South),
B a n g a l o r e.

Sir,

Subject: Water supply scheme to Lakkavalli village recovery of porrata maintenance charges from village panchayat, Lakkavalli.

In continuation of this office letter No.S.4455-54 dated 23-10-1958 on the above subject, I write to state as follows.

The Tahasildar of Tarikere Taluk has intimated the Khanesumari population figures of Lakkavalli village from the year 1946-47 onwards in his letter No.RPC 128/58-59 dated 25-10-58 (copy enclosed).

According to the figures furnished by him, the present population of the Lakkavalli village may be taken at 2,500 exeluding the staff of Bhadra Reservoir Project residing at P.W.D. quarters at Lakkavalli and the labour population residing outside the village Panchayat limits. There are 39 public fountains in the village. The hours [illegible]re 6 a.m. to 10-30 a.m. and 4-30 p.m. to 7-30 p.m. [illegible] hours a day. Under these conditions of supply [illegible]sonable to assume a per capital consumption [illegible]s per day. The total consumption by the [illegible]at this rate would be 25,000 gallons

[illegible]antity of water pumped daily, over a [illegible]om January 1958 is reported to be

The consumption of water by the people of Lakkavalli village alone will work out to 1/8.5 of the total quantity of water pumped per day.

The actual expenses for the maintenance of water supply to Bhadra Reservoir staff colony and Lakkavalli for the last 3 years are reported to be as follows:

		Rs.
Actual expenditure for	1955-56	37,626.56
-do-	1956-57	33,603.37
-do-	1957-58	45,253.49

The average of the above works out to Rs.38,828 or 39,000/- Based on the above average figures the prorata maintenance charges to be borne by the Lakkavalli Village Panchayat will be (1/8.5 x 39,000) = Rs.4,588 or Rs.4,500/- Hence prorata maintenance charges of water supply to be recovered from Lakkavalli village Panchayat on the basis of population and average consumption will be Rs.4,500/- per annum.

After the project works are completed there will be considerable reduction of pupulation both in the staff colony and also at Lakkavalli village. Consequent to this there will be reduction in the maintenance cost of the water supply works The position will have to be reviewed after a lapse of five years and the pro-rata charges reassessed.

The payment of this amount of Rs.4,500/- will only the charges for the existing arrangement of by public fountains only and does not permit of or improvements such as increased hours of sup number of public fountains. It does not als grant of house connections. If house connect there will be a large increase in the quality and the annual maintenance charges will also i

The proportion to be met by the vil

ore.

The most accurate way of assessing the charges would be to instal a meter to measure the actual quantity of water issued to the village and charge for it at actual cost of supply. If this is done the Village Panchayet may be permitted to grant house connections and recover water charges from the the consumers at suitable rates.

Yours faithfully,

Sd/- (G.Subrahmanyam)
Superintending Engineer,
MR/22-11. Bhadra Reservoir Circle.

Letter No.S.5157-60 dated 22-11-1958 from the Superintending Engineer, Bhadra Reservoir Circle, B.R.P.Post, to the Chief Engineer, Major Irrigation (South) Bangalore.

Subject:- Water supply scheme to Lakkavalli Village recovery of porrata maintenance charges from Village Panchayat, Lakkavalli.

In continuation of this office letter No.S.4453-54 dated 23-10-58 on the above subject, I write to state as follows:-

The Tahasildar of Tarikere Taluk has intimated the Khanesumar population figures of Lakkavalli Village from the year 1946-47 onwards in his letter No.RPC.128/58-59 dated 25-10-58 (copy enclos

According to the figures furnished by him, the present popula of the Lakkavalli Village may be taken at 2,500 excluding the staf of Bhadra Reservoir Project residing at P.W.D.Quarters at Lakkaval and the labour population residing outside the Village Panchay limits. There are 39 public fountains in the village. The of supply are 6 a.m. to 10-30 a.m. and 4-30 p.m. to 7-30 p.m. i.e., 6 hours a day. Under these conditions of supply it wou reasonable to assume a per capital consumption of about 10 gal day. The total consumption by the village population at this would be 25,000 gallons per day.

The average quantity of water pumped daily, over a period ten months from January 1958 is reported to be 2,14,000 gallon

The consumption of water by the people of Lakkavalli vill will work out to 1/8.5 of the total quantity of water pumped p

The actual expenses for the maintenance of water supply t Reservoir staff colony and Lakkavalli for the last 3 years are reported to be as follows:-

Actual expenditure for	1955-56	..	Rs. 37,626.56
-do-	1956-57	..	33,603.37
	1957-58	..	45,253.49

The average of the above works out to Rs.38,828 or 39,000, based on the above average figures the prorata maintenance cha to be borne by the Lakkavalli Village Panchayet will be (1/8.5 = Rs.4,588 or Rs.4,500/-. Hence prorata maintenance charges water supply

water supply to be recovered from Lakkavalli Village Panchayat on the basis of population and average consumption will be Rs.4,500/- per annum.

After the project works are completed there will be considerable reduction of population both in the staff colony and also at Lakkavalli Village. Consequent to this there will be reduction in the maintenance cost of the water supply works. The position will have to be reviewed after a lapse of five years and the pro-rata charges reassessed.

The payment of this amount of Rs.4,500/- will cover only the charges for the existing arrangement of water supply by public fountains only and does not permit of any extension or improvements such as increased hours of supply or a larger number of public fountains. It does not also cover the grant of house connections. If house connection are permitted there will be a large increase in the quantity of water consumed and the annual maintenance charges will also increase.

The proportion to be met by the Village Panchayet will also be more.

The most accurate way of assessing the charges would be to instal a meter to measure the actual quantity of water issued to the village and charge for it at actual cost of supply. If this is done the Village Panchayat may be permitted to grant house connections and recover water charges from the consumers at suitable rate.

Subject: Water supply scheme to Lakkavalli Village - Recovery of pro-rata Maintenance charges.

Please refer to your D.O.No.PWD 240 BRP 57 dated 5th December 1958 on the above subject. The question of recovery of pro-rata maintenance charges of water supply to Lakkavalli Village was brought to the notice of the Minister P.W.D. when he visited the village on 8-8-58. The Minister ordered after a brief discussion of the subject that the maintenance charges should be determined on a more rational basis as the amount demanded from the Village Panchayat was worked out without a proper assessment of all the factors involved. I would invite a kind reference to this office No.3779-81 of 15-9-58 forwarding a copy of the report furnished to the Chief Engineer, Major Irrigation (South), on the subject. The instructions issued by the Minister are embodied therein. I enclose a copy of the letter for ready reference. I also enclose a copy of letter No.1304 dated 9-9-58 from the Executive Engineer, No.3 Workshop and Mechanical Division, containing the Minister's instructions.

Bangalore.

MR/31-12.

31/12/58

Letter No.ST 1304 dated 9-9-58 from the Executive Engineer, No.3 Workshop and Mechanical Division, B.R.Project to the Superintending Engineer, Bhadra Reservoir Circle.

Sub: Water supply scheme for Lakkavalli village.
Ref: Letter No.PWD 240 BRP 57, dated 25-8-58 from the Secretary to Government of Mysore Public Works Department to the Superintending Engineer, B.R.Circle, B.R.P. post.

Superintending Engineer's Memo No.10439 dated 2-9-1958.

With reference to your above memo I write to state as follows:-

During the visit of the Minister for P.W.D. to Lakkavalli village on 8th August 1958, the question of the basis on which the charges of Rs. 6000/- per annum to be paid by the Village Panchyet Lakkavalli was fixed up, was discussed. It was explained to the Minister that the above charges were arrived at, taking into consideration the total annual maintenance cost of the water supply works and the proportional consumption, by Lakkavalli village, of the total quantity of water pumped. The total cost of annual maintenance being Rs.30,000/- and the consumption by Lakkavalli village being about 1/5 of the total pumpage, the prorata charges were ~~was~~ fixed at 1/5 of ~~the~~ Rs.30,000/- i .e. 6,000/- Thereupon the Minister instructed that the charges to be levied on the village Panchayet Lakkavalli should be calculated on a more rational basis. The Minister further instructed that, at present there was a lot of floating population at Lakkavalli due to contractors and labourers, and that the permanent population of the village only should be taken into consideration for purposes of above calculation and that assuming a reasonable consumption per capita the total consumption of the village on the basis of its original population should be calculated and the charges to be borne by the village pancyet should be fixed up.

With a view to take action on the above lines, the Tahsildar, Tarikere has been addressed to intimate the Khaneshumari population figures of Lakkavalli village as intimated in this office No.MT 3679 dated 2-9-58. Further action will be taken on receipt of the above information.

Superintending Engineer, 31/12/58
Bhadra ~~Reservoir~~ Circle.

A/31/12/58.

Letter No.3779-81 dated 15-9-58 from the Superintending Engineer, Bhadra Reservoir Circle, B.R.Project to the Chief Engineer, Major Irrigation (South), Bangalore.

Subject: Water supply scheme for Lakkavalli Village, Tarikere taluk.

I write to enclose a copy of letter No.PWD 240 BRP 57 dated 25th August 1958 on the above subject and wish to state that Lakkavally Village is provided with a protected water supply from the project in accordance with G.O.No.PWA 9395-98/Irn-1-54-165 dated 16/20-12-54. The Deputy Commissioner, Chickmagalur District was requested in para 3 of the G.O. to obtain a resolution by the Village Panchayet, Lakkavalli agreeing to bear pro-rata maintenance charges of the water supply scheme.

The water supply scheme was completed in July/August 1955. The Executive Engineer, No.3 ~~Water supply~~ Workshop and Mechanical Division, who was in charge of the water supply addressed the Deputy Commissioner, Chickmagalur in his No.1413 of 18-6-56 requesting him to obtain the necessary resolution of the Village Panchayat regarding pro-rata maintenance charges being borne by them. But So far they i.e. theVillage Panchayet have not passed any such resolution but they have pleaded their inability to pay any portion of the maintenance charges in the existing state of their finances. On the other hand they have been persistently urging for private house connections being granted in the village.

The outlay on Annual Maintenance of the Water Supply from 1954-55 is as follows:

1954-55	24,588-10-3
1955-56	27,614- 1-0
1956-57	33,603- 5-10
1957-58	43,730.82

The water supply to the village was turned on in 1955, July. So far no payment has been received from the village Pancyat towards maintenance charges.

The Special Chief Engineer for Major Irrigation Works, apprised Government in his letter No.995-6/S dated 12-1-56 of the position and requested that the Deputy Commissioner, Chickmagalur. District, may be urged to use his good offices to obtain the concurrence of the Panchayat to pay the prorata maintenance charges. The Secretary, P.W.D. requested the Deputy Commissioner in his No.PWA 11322-23 of 24-3-56 to take necessary action in this behalf. He requested the Chief Engineer, Major Irrigation (South), in his No.PWA 6265 of 9-11-56 to intimate the amount of prorata maintenance charges recoverable from the Panchayat.

The Chief Engineer, Major Irrigation (South), was informed in this office No.5118 of 25-3-57 that the pro-rata charges will be 1/5 of the total maintenance charges. This was based upon a report furnished by the Executive Engineer, No.3 Workshop and Mechanical Division in his No.2422 of 18/19-3-57. A copy is enclosed for ready reference.

This proportion is based on ~~the~~ an approximate proportion of water consumed in the project area and the village. It is clear from the Executive Engineer's letter that there is no data and no figures either of population or of the quantity of water supplied to support the ratio of consumption. It has to be conceded that this figures of 1/5 is liable to be treated as arbitrary.

The question was brought to the notice of the P.W.Minister

during his visit to the village on 8-8-58. He instructed that the question should be re-examined thoroughly and the charges apportioned in a more rational manner. He suggested that it should be based on the population of the areas secured. This is now being attended to. A copy of the report received from the Executive Engineer, No.3 Workshop and Mechanical Division, in this behalf in his No.1304 of 9-9-58 is enclosed for reference.

In addition to getting the population figures for purposes of fixing up the prorata charges from the village, I have instructed the Executive Engineer, to furnish full details regarding the number of public fountains in the village, the hours of supply and the probable quantity of water supplied daily to the village. All these factors will be taken into consideration in ~~assuring~~ arriving at the share of the Panchayet dues towards Maintenance.

A further report will be made after these details are obtained and corelated. I am forwarding a copy of this letter to the Secretary to Government, Public Works Deparment, P.W.D. for information.

MYSORE GOVERNMENT SECRETARIAT
NO. 1675
19 FEB
PUBLIC WORKS MAJOR IRRIGATION BRANCH

Sir,

With reference to the above D.O. addressed to the Deputy Commissioner, Chikkamagalur District and copy endorsed to this office, I write to state that no report from the Deputy Commissioner is received in this office on the subject viz., acceptance of the Village Panchayat for payment of prorata maintenance charges.

The prorata maintenance charges of Rs.4,500/- is fixed on the basis of supply of ten (10) gallons per day per head through public fountains only for a population of 2,500 as already reported vide this office letter No.2983 of 1st December 1958.

It is reported by the Superintending Engineer, Bhadra Reservoir Circle that the Village Panchayat now wants to have house connection for their village. In this connection, I have to state that by giving house connection, it may become necessary to provide more pipe lines on account of which the Project authority will have to bear the extra cost and debit it to the Project. The Village Panchayat also may not be able to lay more pipe lines at their own cost. It is not desirable to give house connection now as the Village Panchayat has not yet come forward to pay

/P.T.O./

9888

Rs.4,500/- per annum towards annual prorata maintenance charges. (The copy of ~~Superintending Engineers~~ letter No.5344-45 of 15th December 1959 from the Superintending Engineer, Bhadra Reservoir Circle enclosed herewith, explains clearly the basis on which the prorata annual maintenance charges are fixed). The maintenance charges will increase if house connections are to be given at the cost of the Project. It is therefore not desirable to provide for house connections.

I, therefore, request you kindly to communicate orders of Government for the recovery of the annual maitenance charges at the rate of Rs.4,500/- per annum.

Yours faithfully,

Bnm:
12.2

CHIEF ENGINEER,
IRRIGATION PROJECTS.

Copy of letter No.IP.5344-45/59.50 dated 12/15th December, 1959 from the Superintending Engineer, Bhadra Reservoir Circle, B.R.Project to the Chief Engineer, Irrigation Projects, Munirabad.

Sub:- Water supply to Lakkavalli Village, Tarikere Taluk - Prorata maintenance charges to be recovered from Village Panchayat, Lakkavalli.

Reference: Your Memo No.1136/T44 dated 19th October, 1959.

Government in their Order No.PWA 9395-98.Irn. 1.54.165 dated 16.12.1954 accorded sanction for a detailed estimate amounting to Rs. 2 lakhs for Water supply to the Lakkavalli Village. As per the above G.O., the Deputy Commissioner, Chickmagalure District, was to obtain a resolution by the Village Panchayat Lakkavalli, agreeing to bear pro-rata maintenance charges of the Water Supply scheme..

The Executive Engineer, No.3 Workshop and Mechanical Division, who was executing the works addressed Deputy Commissioner, Chickmagalur District, in his No.1413 dated 17.6.55 to obtain a resolution from the Village Panchayat, Lakkavalli, agreeing to bear the prorata maintenance charges of water supply among other subjects. But sofar neither the Deputy Commissioner, Chickmagalur nor the Chairman, Village Panchyat has sent such a resolution. However, the water supply facilities were extended suring 1955 and no prorata maintenance charges have yet been collected and paid by the Village Panchayat, Lakkavalli.

This fact was reported to Government with your Memo No. 995-6 dated 12.1.1956 with a request to address the Deputy Commissioner, Chickmagalur District, for obtaining the concurrence of the Village Panchayat for the payment of maintenance charges. In reply the Secretary, P.W.D. in his No.PWA.6265 dated 9.11.56 addressed to you to intimate the amount per annum of the prorata maintenance charges of the Water supply Scheme to Lakkavalli Village. Accordingly with your letter No.1124 dated 26.7.1957, the Secretary,PWD, was intimated that the annual maintenance

charges come to Rs.30,000/- and the proportion of consumption of water by the Colony and the Village may be taken as 4:1 and on this basis Rs. 6,000/- will have to be recovered from the Village Panchayat.

The Secretary, PWD, in his letter No.240 dated 1.9.57 informed you that it would be desirable to request the Village Panchayat once again to contribute Rs. 6,000/- per annum for maintenance charges.

The Village Panchyat in their resolution dated V.P.C. 12 dated 5.1.58 intimated that due to financial difficulties it was not possible to bear prorata annual maintenance charges but decided to pay Rs. 2,000/= for the first year; Rs. 3,000/= for the second year and Rs. 4,000/= for the 3rd year (copy enclosed for reference).

These facts were reported to the Secretary to Government PWD, with your letter No.3242-43 dated 12.2.1958 stressing that the Village Panchayat, Lakkavalli, should pay Rs. 6,000/- towards the maintenance charges. No orders were communicated by the Governmeht on this report.

Meanwhile, when the Minister for P.W.D. visited the Bhadra Reservoir works on 8.8.1959, the subject was brought to his notice by the Village Panchayat and he directed that the amount of the prorata charges should be based on a rational basis and an Adhoc basis as at present. This prorata annual maintenance charges per year, should also have bearing on the Population of the Village Lakkavalli, before the Project was started, vide No.PWD 240 BRP 57 dated 25.8.58 from the Secretary to Government,P.W.D. to the Superintending Engineer, Bhadra Reservoir Circle (Copy enclosed).

The Tahsildar, Tarikere was addressed in the matter who intimated the Executive Engineer, No.3 W.&.M.Division with his No.128 dated 25.10.58 that the population of the village was 2,500 during 1946-47 before the starting of the B.R.Project. The Executive Engineer, No.3 W.&.M. Division, in his No.1845 dated 5.11.58 reported that based on population basis the pro-rata maintain charges will be Rs. 4,500/- and this fact with relevant details was reported to you with this office letter No.Ss5157-60 dated 22.11.58 and the same

93

~~and the same~~ was intimated to the Court with your letter No.2983 dated 1.12.1958.

Government in their D.O.No.PWD 24 dated 7.9.59 addressed to the Deputy Commissioner, Chickmagalur, to furnish the opinion of the village Panchyat Lakkavalli, for bearing the prorata maintenance charges as worked out as per directions by the Minister for P.W.D. So far no report has been received on this subject form the Deputy Commissioner, Chickmagalur, on this subject.

The Village Panchayat now wants to have house connections for the village. Detailed statements showing the amount the Panchayat has to pay for providing house connections for different number of taps as the case may be in addition to the prorata annual maintenance charges are herein enclosed for favour of disposal. Orders of Government may kindly be obtained and communicated for taking further action in the matter.

Sd/- (M.A.Subhan Khan),
for Superintending Engineer,
Bhadra Reservoir Circle.

PROCEEDINGS OF THE GOVERNMENT OF MYSORE

Sub: Water Supply to Lakkavally Village
Tarikere Taluk.

Ref: 1) G.O.No.P.W.A. 9395-98/Irn. 1-54-165 dated 16/20-12-1954
2) Correspondence ending with letters (1)No.2139/TA4, dated 15-2-1960 from the Chief Engineer, Irrigation Projects, Munirabad and (2) No.D4,PR.77-C.2529/58-59 dated 26-4-60, from the Deputy Commissioner, Chickmagalur.

Preamble: In the above Govt. Order, sanction was accorded to an estimate amountint to Rs.2 lakhs for water supply to Lakkavally village. The Deputy Commissioner Chickmagalur was also requested to obtain a resolution from the Village Panchayet, Lakkavally agreeing to bear pro-rata maintenance charges of the water supply scheme.

The Deputy Commissioner, Chickmagalur has forwarded a copy of the resolution of the Village Panchayet, Lakkavalli dated 5-10-1959. The Village Panchayet have resolved therein that it is not possible for them to bear the pro-rata maintenance charges in view of the low income of the village panchayet. The Deputy Commissioner has therefore requested Government to drop the question of recovery and has suggested that to B.R.P. may meet the entire cost of Maintenance.

Order No.PWD 240 BRP 57
Bangalore, dated 6th July 1960. 11-7-60
Ashada 15 Saka Era 1882.

The question of recovery of pro-rata charges from the Village Panchayet, Lakkavally has been considered in all its aspects and it is hereby ordered that the entire cost of maintenance of water supply to Lakkavally village may be met out of Bhadra Reservoir Project funds.

By order and in the name of
the Governor of Mysore,

C. P. Venkatesa Das 9-7-60
(C.P.Venkatesa Das)
Deputy Secretary to Government,
Public Works Department.

To
The Resident Audit Officer, Bhadra Reservoir Project, thro.F.D.
The Chief Accounts Officer, Bhadra Reservoir Project, Via Birur.
The Chief Engineer, Irrigation Projects, Munirabad.
The Deputy Commissioner, Chickmagalur.
The Superintending Engineer, Bhadra Reservoir Circle, B.R.P. Via Birur.
